1. American Community Survey 2019-2023, unless noted otherwise

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

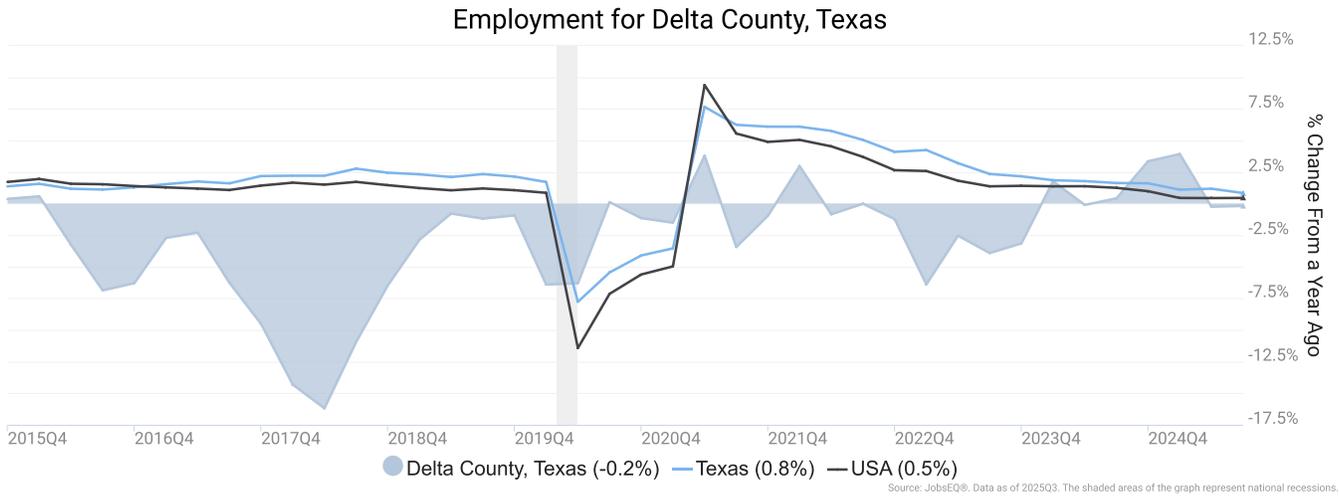

3. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

4. Census Population Estimate for 2024, annual average growth rate since 2014.

5. The Census's method for calculating median house values changed with the 2022 data set, so pre-2022 values are not directly comparable with later data.

Employment Trends

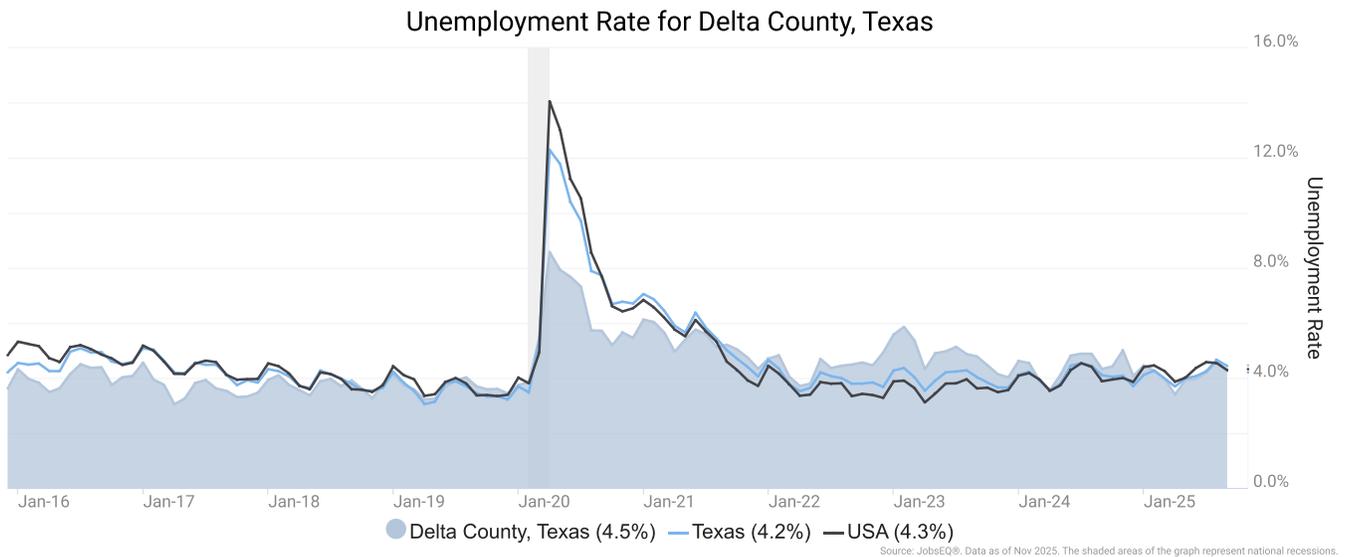

As of 2025Q3, total employment for Delta County, Texas was 1,313 (based on a four-quarter moving average). Over the year ending 2025Q3, employment declined 0.2% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q3 with preliminary estimates updated to 2025Q3.

Unemployment Rate

The unemployment rate for Delta County, Texas was 4.5% as of November 2025. The regional unemployment rate was higher than the national rate of 4.3%. One year earlier, in November 2024, the unemployment rate in Delta County, Texas was 5.0%.

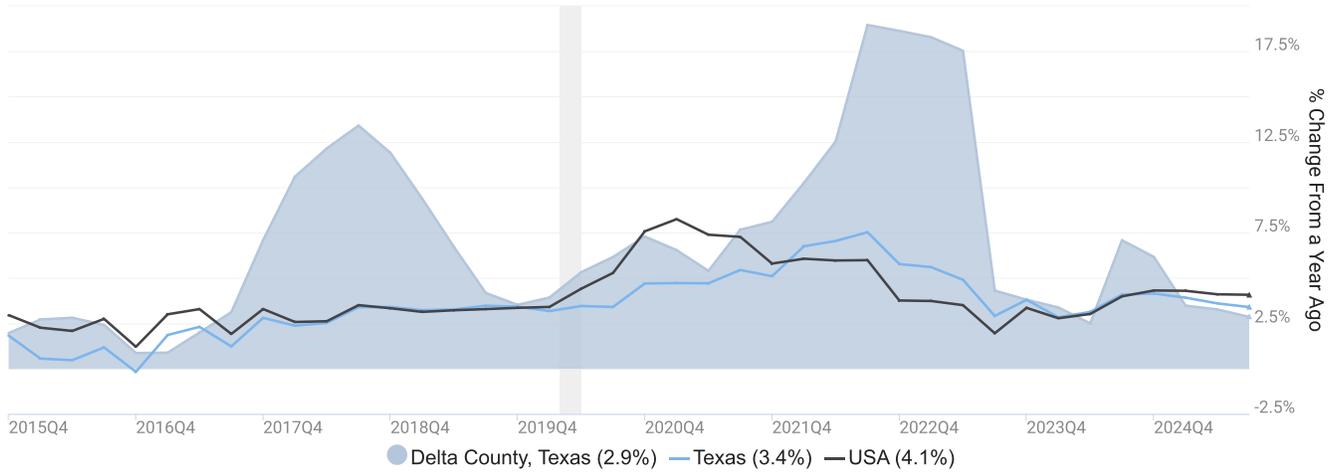

Unemployment rate data are from the Local Area Unemployment Statistics, provided by the Bureau of Labor Statistics and updated through November 2025.

Wage Trends

The average worker in Delta County, Texas earned annual wages of \$39,307 as of 2025Q3. Average annual wages per worker increased 2.9% in the region over the preceding four quarters. For comparison purposes, annual average wages were \$75,653 in the nation as of 2025Q3.

Average Annual Wages for Delta County, Texas

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q2 with preliminary estimates updated to 2025Q3.

Cost of Living Index

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 12.0% lower in Delta County, Texas than the U.S. average.

Cost of Living Information

	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power
Delta County, Texas	\$39,307	88.0	\$44,659
Texas	\$74,507	92.6	\$80,458
USA	\$75,653	100.0	\$75,653

Data as of 2025Q3

Note: Figures may not sum due to rounding.

1. All data based upon a four-quarter moving average

Exits and transfers are approximate estimates based upon occupation separation rates.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2025Q2 with preliminary estimates updated to 2025Q3. Forecast employment growth uses national projections adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in Delta County, Texas is Management Occupations, employing 250 workers. The next-largest occupation groups in the region are Healthcare Support Occupations (171 workers) and Educational Instruction and Library Occupations (123). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Farming, Fishing, and Forestry Occupations (LQ = 5.55), Healthcare Support Occupations (2.67), and Management Occupations (2.43).

Occupation groups in Delta County, Texas with the highest average wages per worker are Legal Occupations (\$89,400), Computer and Mathematical Occupations (\$83,900), and Management Occupations (\$79,900). The unemployment rate in the region varied among the major groups from 1.6% among Healthcare Practitioners and Technical Occupations to 8.9% among Construction and Extraction Occupations.

Over the next 5 years, the fastest growing occupation group in Delta County, Texas is expected to be Healthcare Support Occupations with a +2.6% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Healthcare Support Occupations (+24 jobs) and Management Occupations (+17). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Healthcare Support Occupations (140 jobs) and Management Occupations (121).

Note: Figures may not sum due to rounding.

1. Data based on a four-quarter moving average unless noted otherwise.

2. Wage data represent the average for all Covered Employment

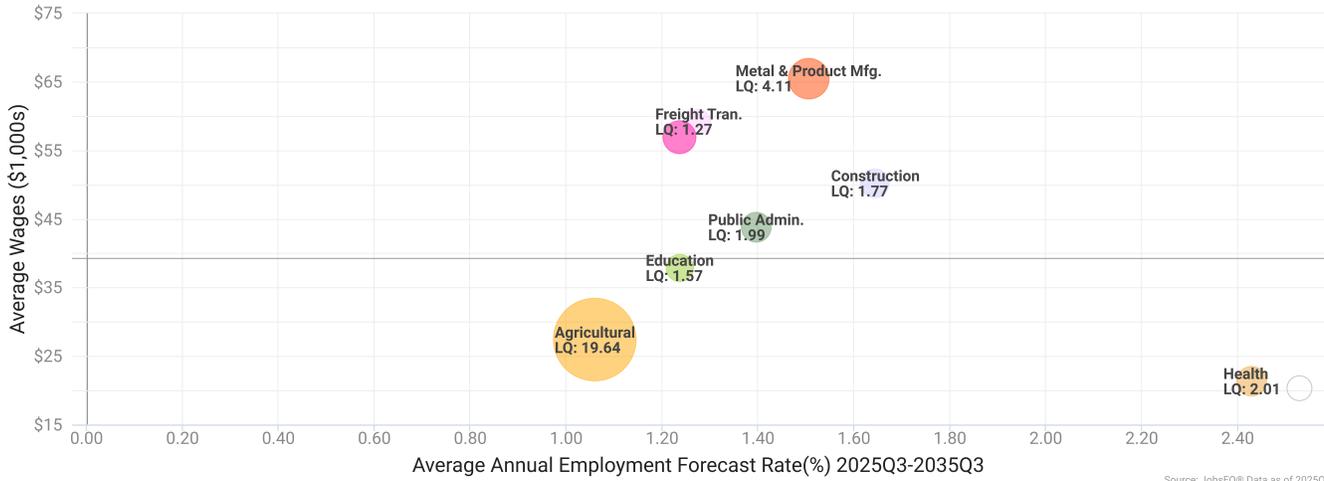

3. Data represent found online ads active within the last thirty days in the selected region. Due to alternative county-assignment algorithms, ad counts in this analytic may not match that shown in RTI (nor in the popup window ad list). Ad counts for ZCTA-based regions are estimates.

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2025Q2, imputed where necessary with preliminary estimates updated to 2025Q3. Wages by occupation are as of 2025 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in Delta County, Texas with the highest relative concentration is Agricultural with a location quotient of 19.64. This cluster employs 240 workers in the region with an average wage of \$27,393. Employment in the Agricultural cluster is projected to expand in the region about 1.1% per year over the next ten years.

Industry Clusters for Delta County, Texas as of 2025Q3

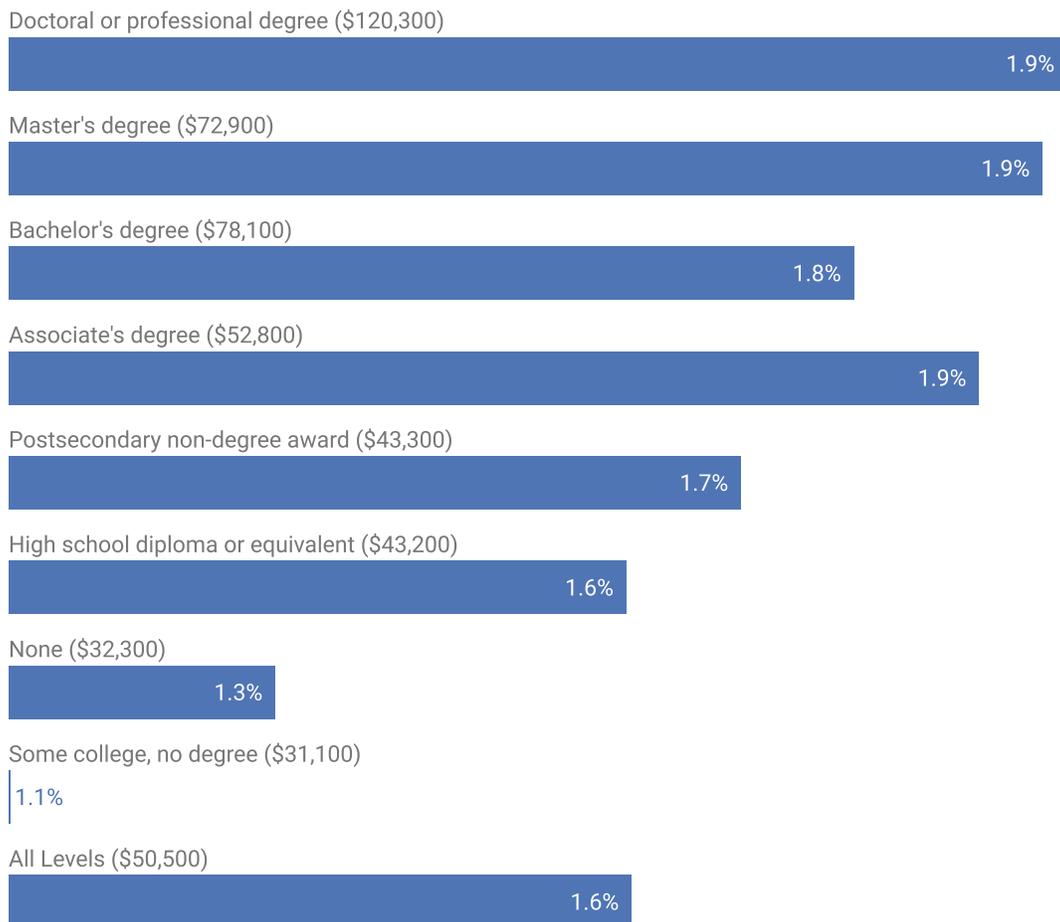

Source: JobsEQ® Data as of 2025Q3

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2025Q2 with preliminary estimates updated to 2025Q3. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in Delta County, Texas is projected to grow 1.6% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 1.9% per year, those requiring a bachelor's degree are forecast to grow 1.8% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 1.9% per year.

Annual Average Projected Job Growth by Education Levels

FAQ

What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is separation demand?

Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The total projected demand for an occupation is the sum of the separation demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a competitive advantage in that cluster.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 804 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 22 major groups, 95 minor groups, and 452 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
